

DEN MEETING FIELD TRIP!

WAUKESHA CRITES FIELD
COUNTY AIRPORT

MONDAY, APRIL 16, 2007

6:00 PM TO 8:00 PM

WAUKESHA COUNTY AIRPORT – CRITES FIELD

Mr. Jones and has generously offered to take Pack 135 Bear, Wolf & Tiger Scouts for a tour of his hanger and the Control Tower at Waukesha County Airport – Crites Field!

Scouts and their families are welcome to attend, and we should arrive at the airport at 6:00PM for personal scheduled tours beginning at 6:30PM. The Airport will allow groups of seven (7) people in at a time, so we will break out into three or four groups depending on how many people want to tour the Tower.

Mr. Jones' hangar is within walking distance of the Tower so while some are touring the Tower, others can be checking out the aircraft in his hanger. Currently, there are five (5) aircraft in his hanger. As a special note: Mr. Jones' actually BUILT HIS OWN PLANE, a KR-2S experimental aircraft. For more info, check out his website at www.flykr2s.com! We can also drive over to the main terminal and tour it. There is an area in the main terminal dedicated to the history of aviation and the development of Waukesha County Airport.

Attached is a map with directions to the Waukesha County Airport. Hope to see you there!
